

DEPOK REGION GENERAL HOSPITAL - WEST JAVA

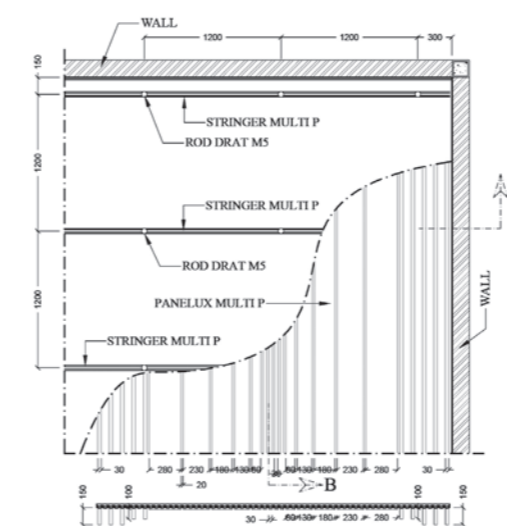

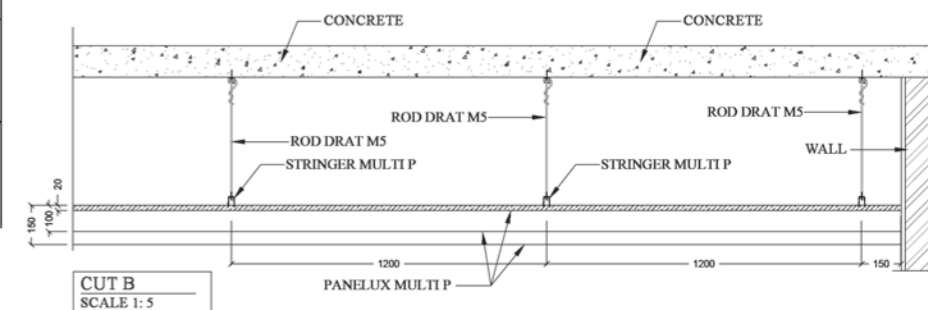

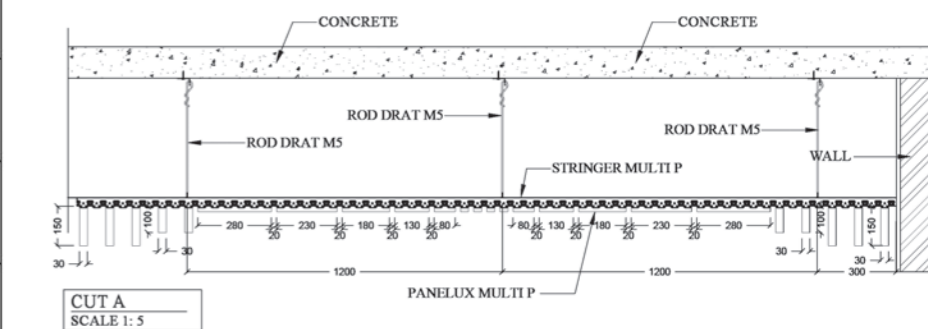

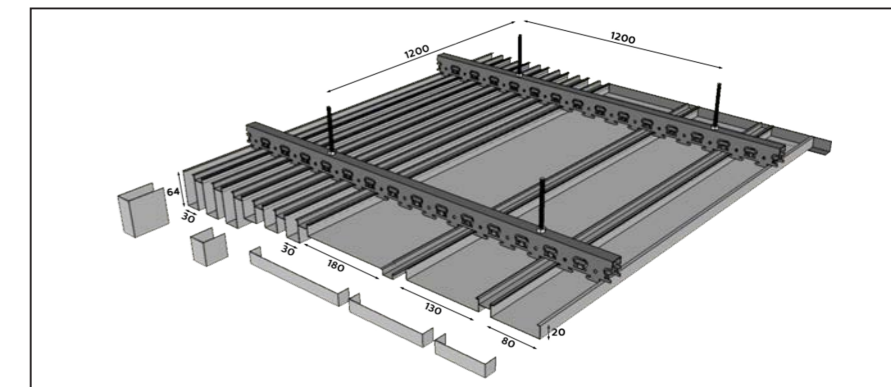

PANELLUX® MULTI-P CEILING

PANELLUX® Multi-P Ceiling offers ease of installation and provides both aesthetic and functional look to your ceiling. **PANELLUX Multi-P Ceiling System** provides design flexibility with a combination of 30mm, 80mm, 130mm and 180mm width panels and height range between 20mm to 150mm. The ceiling profile is ideal for interior and exterior applications such as terraces, corridors, canopies, lobbies and toilets at airport terminal buildings, shopping centers, showrooms, apartments, transportation, factories and so on.

PANELLUX® Multi-P Ceiling is made from Pre-painted Aluminium. The installation uses the stringer frame with the Clip-Lock system without the need for bolts or screws. Products are available in Plain, Color and Woodgrain finish.
